The Life of Sir William Osler, Volume 2 Harvey Cushing 2013-05 William Osler (1849-1919) is widely regarded as one of the most influential physicians of the late 19th and early 20th century and a key figure in the history of medicine. Besides his research activities and his dedicated scientific work, Osler's greatest contribution to the medical world has been the system of residency which he developed at the Johns Hopkins Hospital in Baltimore, thus introducing a new and deeply humanistic approach to the strictly scientific realm of traditional medicine. Harvey Cushing (1869-1939), a former student and close friend of Osler's and a pioneer of neurosurgery, has himself become an icon of modern medicine. He was one of the first physicians to use X-rays for diagnosing brain tumours and he developed revolutionary methods of blood pressure measurement. He also discovered Cushing's syndrome, the first autoimmune disease identified in a human being. This monumental biography earned him the Pulitzer Prize in 1926.

Feels Like Redemption David Glenn Taylor 2020-08-20 In the Christian Church and the world at large today, addiction to pornography is not just a crisis, it is the crisis. The approach for many has been to label this a war, and scores of books and teachers have tried to show that using various control methods and tools in order to deal with the problem leads to freedom. But the crisis continues to grow, and true freedom, the kind that Jesus seems to be pointing to in the Gospels, seems forever out of reach. This powerless approach has left millions without true freedom and asking some very hard questions about themselves, their sexuality, and the nature of God. In this groundbreaking new book on an age-old topic, author Seth Taylor leads us into the question: "Is there any real power? And if there is, why don't we see it more?" With this question as the starting point, Taylor shows readers how to peel back the layers of all the things people are medicating with pornography and other "drugs". He gives readers the tools to make their Spirits come alive. Through a compelling combination of stories and spiritually grounded teaching from his own pilgrimage, Taylor shows readers that freedom is not a myth, but rather the essence of every human being, created in the image of God. Feels Like Redemption powerfully teaches that this journey into sexual and spiritual health is not a battle. It's a Pilgrimage - a Sacred Journey. And in walking this journey, we can be changed forever.

Biblically Sound Evan Lenow 2014-08-09 Studying doctrine for the Christian often feels like watching a construction crew build a foundation. There seems to be a great amount of activity, but the results don't appear visible. Just like the foundation is essential for the stability of a building, studying theology is crucial to the long-term stability of the believer. The goal of this study is to provide you with the basics of biblical doctrine to make sure your foundation is sound. At times this will feel like the difficult work of laying an unseen foundation for a building. At other times, however, it will feel like we are soaring to great heights as we explore the breadth and length and height and depth of our faith. During the course of this study, we will consider the questions: Why study theology? Who is God? Who am I? What is the church? Where do I go when I die? Why do other people believe differently?

Purity of Heart Rev Bert M. Farias 2012-12-21 The primary basis of all judgement concerning the deeds done in our bodies is our motives. Our values determine our motives, and our motives are the real reason behind our thoughts, words, and deeds. Only God can see the true motives of every man's heart. Almost all human beings have something to hide. Nearly everyone twists words, events, and situations to their own advantage, to place themselves in the best possible light. Men often have ulterior motives and hidden agendas. This is sin and a form of hiding. Adam and Eve first hid from the presence of the Lord in the garden after they had fallen. But there will be no hiding from the presence of the Lord on that solemn Day of Judgement. Purity of Heart will prepare you for that day and spare you loss at the judgement seat of Christ, so that you may receive your full reward. What is done in pure love, by the leading of the Spirit, and for the glory and honor of God shall reap the fullest rewards.

Tourism Adrian Franklin 2003-03-18 Argued with a real verve, it makes a plea to rethink the role of tourism in modernity seeing it not as a fleeting and marginal element, but as something enduring, emblematic and constitutive of contemporary

society. Tourism is seen as a key element of modern life, not an escape from it' - Mike Crang, Department of Geography, University of Durham Tourism is a rapidly growing area of student enrolment. Lecturers and students who have waited patiently for an up-to-date, lucid and indispensable teaching and research text, need wait no more. This book is a matchless guide to understanding the theory, practice, development and effects of tourism. *Tourism: An Introduction* - equips students with a critical perspective of the central processes of tourism and the relationship between tourism and culture - places tourism at the heart of modern life rather than as a peripheral feature added on after work - illuminates the relationship between tourism and nation formation, citizenship, consumerism and globalization - reveals the ritual, performative and embodied dimensions of tourist experience This book offers readers a major synthesis of modern thought on tourism. It breaks the mould of approaching tourism as a self-contained, compartment of contemporary life and treats it as a major and exciting cultural phenomenon. This is a landmark work in the study of tourism. Adrian Franklin is the editor of the acclaimed journal *Tourist Studies* (SAGE Publications).

One Day at a Time Daniel J. Fick 2019-04-04 *One Day at a Time* provides an explicit view into my journey from obsession with lust, addiction to pornography use, and adultery to real emotional and spiritual healing. Lust, and the compulsive attitudes and actions it breeds, is one of the most profound and taboo issues facing humanity today. Most within the Church are too afraid to share their stories of struggle and redemption. Unfortunately, fear is born from shame, which keeps those struggling isolated, allowing for our obsessions and addictions to fester and destroy lives and families. Through anecdotal advice, scientific research, and honest, transparent, and humble autobiography, this book aims to bring awareness to the havoc lust, pornography use, and adultery are wreaking on society today.

Doing Time with God: Stories of Healing and Hope in Our Prisons MR Bill Dyer 2013-09-30 True crime stories provide the foundation of this prison memoir. Bill Dyer was robbed and shot at an ATM. In *Doing Time with God*, you go into prison with him and other victims of violence to meet with convicted felons who will be facing their worst and greatest realizations, before they are released. Nothing is predictable when victims and offenders come together and share their stories of the true crimes that have devastated their lives...and reshaped them. Victim-survivors remember their losses and feel their pain; Offenders come face-to-face with the hurt they have caused, and open wounds from their own past. Walls of defensiveness and fear are knocked down by empathy and compassion, vulnerability and tears. Raw emotions flow. The way to peace is often intense, turbulent, and heartbreaking. Even when it's not pretty, the journey is beautiful in its honesty... miraculous in the way it unfolds...divine in how it transforms lives. *This Amazing Process Opens the Heart, Touches the Soul, and Renews the Mind*

Medical Humanities, Sociology and the Suffering Self Wendy Lowe 2020-12-23 Following criticisms of the traditionally polarized view of understanding suffering through either medicine or social justice, Lowe makes a compelling argument for how the medical humanities can help to go beyond the traditional biographical and epistemic breaks to see into the nature and properties of suffering and what is at stake. Lowe demonstrates through analysis of major healthcare workforce issues and incidence of burnout how key policies and practices influence healthcare education and experiences of both patients and health professionals. By including first person narratives from health professionals as a tool and resource, she illustrates how dominant ideas about the self enter practice as a refusal of suffering. Demonstrating the relationship between personal experience, theory and research, Lowe argues for a pedagogy of suffering that shows how the moral anguish implicit in suffering is an ethical response of the emergent self. This is an important read for all those interested in medical humanities, health professional education, person-centred care and the sociology of health and illness.

Medieval Death Paul Binski 1996 Medieval Death is an absorbing study of the social, theological, and cultural issues involved in death and dying in Europe from the end of the Roman Empire to the early sixteenth century. Drawing on both archaeological and art historical sources, Paul Binski examines pagan and Christian attitudes towards the dead, the aesthetics of death and the body, burial ritual and mortuary practice. The evidence is accumulated from a wide variety of medieval thinkers and images, including the macabre illustrations of the Dance of Death and other popular themes in art and literature, which reflect the medieval obsession with notions of humility, penitence, and the dangers of bodily corruption. The author discusses the impact of the Black Death on late medieval art and examines the development of the medieval tomb, showing the changing attitudes towards the commemoration of the dead between late antiquity and the late Middle Ages. In the final chapter the progress of the soul after death is studied through the powerful descriptions of Heaven, Hell, and Purgatory in Dante and other writers and through portrayals of the Last Judgment and the Apocalypse in sculpture and large-scale painting.

Do you say only what the doctor has diagnosed. Do you allow others to speak negatively in your presence? Or do you say what God says? This book defines the most powerful healing principles in Scripture and encourages you to stop negative self-talk, control your thinking, and declare healing over your body regardless of the current health condition or medical diagnosis. Included, the positive self-talk guides will help affirm God's will for victory in the area of healing emotionally, physically, mentally, financially, and spiritually. He wants to rub sickness and disease in our faces so that we lose faith and hope in healing. Don't talk yourself out of your healing. Today, declare, "By Jesus stripes I am healed and made whole." And don't let anyone talk you out of it. The victory is yours in healing- whether it be emotional, physical, and psychological. This is the 3rd book of the By Faith I Declare series. For your spiritual growth read the companion books in this series, Deliver Me From Negative Self Talk: Faithful Words to Say When You Talk T Yourself and the latest title, Positive Self Talk For Emotional Peace: Set Boundaries and Take Back Control of Your Life.

Redemption Road Brendan McManus, SJ 2016-04-11 Sometimes the best cure for a wounded soul is a really long walk . . . One June morning, Fr. Brendan McManus stepped out for a much-needed walk—to be exact, a 500-mile hike on Spain ' s renowned Camino de Santiago. A few years earlier, his brother had committed suicide, and the tragedy left Brendan physically, psychologically, and spiritually wounded. Something radical was required to rekindle his passion for life and renew his faith in God. Redemption Road is the story of a broken man putting one foot in front of the other as he attempts to let go of the anger, guilt, and sorrow that have been weighing him down. But the road to healing is fraught with peril: steep hills and intense heat, wrong turns and blistered feet. Worse still, a nagging leg injury could thwart Brendan ' s ultimate goal of reaching the Camino ' s end and honoring his brother in a symbolic act at the Cathedral of Santiago de Compostela. Constantly tempted to quit his quest, Brendan relies on the principles of Ignatian spirituality to guide him on his journey from desolation to consolation. For anyone going through the process of grieving, Redemption Road offers real hope— not that the path to peace will be easy, but that Christ, who himself suffered and died, will be with us every step of the way and lead us at last to

wholeness and healing.
