Hippocrate 1689

Ethnika kat' epitom?n Stephanos (ho Byzantios) 1694

L'Enseignant dans la communauté éducative d'école catholique Seraphin Koualou-Kibangou 2014-12-18 Principal acteur pédagogique, l'enseignant est une figure incontournable dans le milieu scolaire et universitaire. Il a la noble mission de transmettre le savoir aux élèves et étudiants, de leur indiquer le chemin de la connaissance et de les accompagner dans le domaine de la recherche scientifique. De ce fait, il devra faire montre de capacités intellectuelles, morales et affectives requises, pour être à la hauteur de sa tâche et à même de gérer ses rapports avec les différentes composantes de la communauté éducative. Sur la base de la situation de l'enseignant en République du Congo et de la théorie relative à la communauté éducative, notamment celle d'école catholique, l'auteur apporte quelques propositions susceptibles d'améliorer les prestations du corps enseignant, au sein de l'école catholique dans le vaste champ éducatif congolais. Comment aborder la réalité éducative en général et celle incluant le monde catholique en particulier? Autour du rôle de l'enseignant en République du Congo, l'auteur confronte théorie et pratique et livre une étude critique et solidement documentée du système éducatif. Nouveaux défis à relever, perspectives innovatrices du rôle de l'enseignant: ouvrant de nouvelles pistes de réflexion, Séraphin Koualou-Kibangou s'attache à réinventer l'enseignement catholique.

**Catholic and Reformed Traditions in International Law Paulo Emílio Vauthier Borges de
Macedo 2017-08-28 This book compares the respective concepts of the law of nations
put forward by the Spanish theologian Francisco Suárez and by the Dutch jurist Hugo
Grotius. This comparison is based on the fact that both thinkers developed quite similar
notions and were the first to depart from the Roman conception, which persisted
throughout the entire Middle Ages and the early Renaissance. In Rome, jus gentium was
a law that applied to foreigners within the Empire, and one which was often mistaken for
Natural Law itself. These two features can be found even in the works of writers such as
Francisco de Vitória and Alberico Gentili. In Suárez and Grotius, the law of nations is
applicable to an extra-national domain and inarguably becomes positive law. Yet, it also
contains an ethical element that prevents it from transforming into a mere reflection of
state interests. This work argues that this resemblance is hardly a coincidence: Grotius
has read Suárez, and that influence has modified the foundations of his early thoughts
on jus gentium. This should not be taken to imply that the Dutch jurist wasn't original:
in both authors, the definition of the law of nations pursues his own internal logic.
Nevertheless, Suárez's oeuvre allowed Grotius to solve a fundamental problem touched
on in his early writings that had remained unanswered. Accordingly, his oeuvre
promises to clarify one of the most significant moments in the History of International
Law.**
